Alabama Oral Health Summit: Expanding Partnerships to Promote Dental Homes for Young Children

The Alabama's Oral Health Summit:
Expanding Partnerships to Promote
Dental Homes for Young Children.

Expanding Partnerships will explore best practices for identifying and sustaining dental homes for children and involving dental home into the total medical home concept.

Through panels, small and large group discussions, and town hall formats, participants will engage presenters and others in dialogue about disparities in access, parents as partners, and education and awareness issues. Sessions look at best practices from across the country for new ideas for ensuring EVERY child in Alabama enjoys good oral hygiene and a lifetime of oral health.

Head Start parents, staff, and child care providers will bring a very different perspective of oral health and begin the most amazing dialogue with the dental community that is sure to make your “mouth” water. Let the conversations begin and let’s build on the foundation Alabama has already laid in its fight to eliminate tooth decay.

Program

Wednesday, September 22, 2010
